Free Smoking Cessation Program Offered in Your Community

**Ascension • East Baton Rouge • East Feliciana • Iberville
Pointe Coupee • West Baton Rouge • West Feliciana**

Cigarette smoking is the leading preventable cause of premature death in the United States. On average, tobacco users die 13 to 14 years earlier than non-smokers. Smoking cessation not only reduces the risk of lung cancer but also reduces the risks of heart disease, stroke, vascular disease, and other types of cancer.

**You can quit. This program will assist you.
Call the location in your community to register
and for start date.**

**Our Free Tobacco Cessation Program
includes Nicotine Patches**
